'The International African Institute was at the cutting edge of a fieldwork and ethnographic revolution in African anthropology after 1930. These studies, re-issued by Routledge offer access to these hidden treasures.' *Andrew Bank, University of the Western Cape*

Routledge is delighted to be re-issuing 79 volumes originally published between 1931 and 1988 in association with the International African Institute. Unavailable outside a few key libraries, many of these republished volumes were at the cutting edge of a fieldwork and ethnographic revolution in African anthropology. This revolution involved the production of a wide body of fieldwork-based ethnographic documentation about the cultures of the different societies in Africa.

This set is comprised of 79 volumes and each volume is supplemented with various maps, which will be available to view from July 2018 on <https://www.routledge.com/African-Ethnographic-Studies-of-the-20th-Century/Authors/p/book/9780815387138> or available as PDFs from the publishers.
